When Steve called and made the request we understood exactly what he needed. We are sending the tables he requested shortly.

We could use a little instruction on how to create reports in RM for field use as well.

**Subject:** M6H1 – Harvey Response: FEMA not getting adequate DW/WW status reports

Got a call from Steve Mason this morning regarding the reporting of DW/WW facility status and FEMA not happy with what they are (not) getting. There has got to be a better way to create ad hoc or standing reports to aggregate the data out of RM in the way folks up the chain need them.
